Goodbye Lipo, Hello Ultrashape!

Ultrashape - Lipo Without The Surgery continues to make waves in the slimming industry since its official launch in Manila early last year. Titled as the first non-invasive breakthrough in body contouring, Ultrashape uses an advanced heat to breakdown and safely lift fat from inside the body. Promising an average reduction of about 1cm in just one treatment, it effectively reduces fat deposits on multiple body areas such as the tummy, flanks and thighs.

A small amount of fat reduction is just not worth undergoing surgery for. Liposuction usually involves massive body contouring, and is often not recommended when only a few inches of fat have to be removed. Thus, for the majority of people who only need a few touchups, Ultrashape offers a much safer alternative. It gives the benefits of liposuction without the risks or side effects, surgical scars and downtime. The result? Smoother, even and shapely curves you can flaunt even without your clothes on!

Due to its increasing popularity, demand for Ultrashape is high often reaching to fully booked appointment schedules from its growing roster of clients. These women have realized - they have finally found the best alternative to liposuction!

➔ **Dawn Zuleta-Laguarda, 38**

"When Ultrashape was offered to me, I was excited! I focused my concentration on that last hard-to-tame fat that remains on your body even after you're lost weight. I told myself, at last, there was a chance to lose all that stubborn fat that just wouldn't come to go away. The doctor explained how Ultrashape destroys the fat cells in the targeted area like my stomach and thighs. From there, the fat is metabolized and lost naturally by my body as energy. The treatment takes

me less than a half and it shows over a month. Ultrashape is really the perfect finishing touch for people like me who have lost weight but still have some lumps and bumps. After my first treatment, it immediately said to myself 'wow, it's perfect!' Ultrashape definitely has all the benefits of lipo minus the surgery and all the risks! There's no downtime whatsoever so you see, liposuction is unnecessary."

➔ **Lyn Ching-Peñalca, 34**

"What convinced me about Ultrashape is the claim - the only treatment you can have in your lunch break. Apart from that, a friend of mine said that her friend told Ultrashape as soon as it came out in the market. And she immediately lost 2 inches in just one month! Ultrashape promises an average of about 1cm. That's true, but it's also

possible for someone to lose even more than that too. That's why for me, even if liposuction was the only weight loss treatment available, I'd rather wait up to a waiting 300 times than have an operation because I don't want the possibility of dying for vanity.

With Ultrashape around, everyone now gets a better slimming option. Since it's non-invasive, I've got nothing to worry about. After trying it firsthand, I was like, 'Is this real?' I just waited in, got the treatment and after an hour, I was on my way back to work again! It's as if nothing happened! The best part was, I could feel my tummy flatter only after a few weeks! No doubt it's the perfect way to trim down every inch!"

➔ **Cristina Gonzalez-Romualdez, 42**

"Nothing really compares to Ultrashape. When I tried it, I immediately lost 1cm in my tummy after only 1 session! Imagine what a couple of sessions more can do! That pills and crash dieting don't work for me. With my eating and exercise regimen, I can't just turn my back from losing and setting my own means. When it's my turn to

going to compare Ultrashape with lipo, lipo doesn't even come close to it so far as safety is concerned. Besides, with Ultrashape around, why would anyone still want to settle for liposuction? I must be very desperate or I must be so fat that I could no longer even imagine I'd consider getting it done. I just find it too dangerous!"

Undoubtedly, Marie France's Ultrashape is a solid proof that the trends in slimming now that sounds like the trends that's safe for a lifetime. After going through a weight loss program, it is highly recommended to maintain with Ultrashape treatments right after. It's the best final touch-up in getting rid of remaining stubborn fat in the body. For looking schedules, call Marie France now at 894-8809 (10:00-12:00).

Comelec affirms Bogo is now 6th city of Cebu

By John R. Bulacan
Reporter/Visayas

Cebu City—FROM FIVE COMPRO-
mit cities, the province now has six
after the Commission on Elections
pronounced Thursday night the pro-
clamation of the municipality of Bogo
as a city.

The former agricultural town in
northern Cebu held a jubilation on
June 10. About 60 percent of 40,278
registered voters cast their ballots.

Representative of Jose Biazon
and Republic Act No. 9570, which
declared Cebu as the 10th, immedi-
ately took effect after the proclama-
tion, making June 10 as the Charter
Day of the new component city.

"The residents of Bogo have ques-

tion through the plebiscite and
now Bogo is officially a city," he
said.

Other component cities of Cebu
are Davao, Toledo, Lugo, Liloan, Mar-
ikina and Talisay. Cebu City is alone.
Bog is a highly industrialized city and
independent from the province of
Cebu.

Marquez said 24,488 out of the to-
tal number of registered voters cast
their votes on Saturday. A total of
23,953 voted "yes" while 492 voted
"no" in Bogo's plebiscite.

Rep. Ciriaco Aragon-Martinez (4th
District) said the bill in 1999 but it
was only in January 2000 that it be-
came law.

Outgoing Bogo Mayor Celestino
Martinez Jr. said he is happy that the

proclamation of Bogo's regional was
a "boom" come true and an "action
event" that the residents had been
waiting for the past five years.

Bogo City is composed of 29
barangays with a population of
88,000 and with an estimated in-
crease of 200 million. Martinez said.

Mayor-elect Celestino Martinez Jr.,
the father of the outgoing mayor, and
the crafting the new city's master
plan would be first on his agenda of
his assumption to office.

The older Martinez, a former con-
gressman in the fourth district, and
Bogo City would be Cebu's center for
trade and commerce and an economic
pulsar in Butuan, Lugo, Marikina
and nearby provinces.

Provincial election

United
Mara Cagayan and
the conduct of the
plebiscite was greatly
successful despite the extended May 14
election while several election centers
have yet to be con-

cluded because of
electronic problems filed by both compo-

nents, including
Mayor Martinez and his rival, but
elections for the
provinces.

Two candidates for
Special Executive Officer
both the Cebu
Provincial Police for
the province were
scheduled for June 10.

Cardinal
and Governor Marikina
will arrive with the
18 election centers
pending a hearing
scheduled for June 10.

Martinez and
his colleagues have
changed perceptions
of political life,
preparing the local
level of government
to step the nation
and bring the life to
Manda for national
elections.

GANITO KALAKI ANG BANTA NG BIRD FLU

Wala pang bird flu sa Pilipinas, pero kelangan pa ring mag-ingat.
Ugaling maghugas ng kamay at huwag basta-basta humawak

All sectors unite to fight bird flu

In a country that seems
divided over every issue,
it's refreshing to see how the
threat of bird flu has brought
varied sectors together.

Since the first announcement in 2003 of avian influenza, the government and various private sector entities have embarked on an ongoing series of efforts to shield our shores. Spearheaded by the Department of Agriculture, the Department of Health, the National Service Bureau, and the Department of Education, the government has taken many steps to prevent the spread of the virus. These include: strict quarantine measures, health screening of travelers, and the implementation of various control measures. The government has also been working closely with the private sector to ensure that the country's food supply is safe and secure.

The World Health Organization (WHO) is the leading authority on bird flu. It has been working closely with the Philippine government to ensure that the country's health system is prepared to deal with the virus. The WHO has also been working with the private sector to ensure that the country's food supply is safe and secure.

Many other sectors, including the media, the business community, and the academic community, have also been working to raise awareness about the threat of bird flu. This has helped to ensure that the public is informed and that the government's efforts are supported.

Together, the WHO, the UNICEF, and the Philippine government have been working to ensure that the country's health system is prepared to deal with the virus. This has helped to ensure that the public is informed and that the government's efforts are supported.

By using Poplar's, starting to allow children to
a regular hand-washing routine to keep the
bird flu virus out of the country.

On the other hand, the PH has introduced a strong
program to promote the use of hand-washing
and other measures to prevent the spread of
the virus. This includes the use of hand-washing
stations in public places and the use of hand-washing
stations in schools.

Local officials and community leaders have also
been working to raise awareness about the threat
of bird flu. This includes the use of hand-washing
stations in public places and the use of hand-washing
stations in schools.

Philippines has also been working to ensure that
the country's health system is prepared to deal
with the virus. This includes the use of hand-washing

of bird flu as well as to prepare the country
to deal with the virus in a possible outbreak.

Just the sight of any... from the line of bird flu
control. The PH has introduced a strong
program to promote the use of hand-washing
and other measures to prevent the spread of
the virus. This includes the use of hand-washing
stations in public places and the use of hand-washing
stations in schools.

The health of the whole world is at risk
as bird flu is a virus that can be spread
to other people. This is why it is so important
to take steps to prevent the spread of the virus.

The Philippines is one of the few countries
in the world that is taking steps to prevent
the spread of the virus. This includes the use
of hand-washing stations in public places and
the use of hand-washing stations in schools.

INVESTIGATORS search for evidence around the wreckage of a suicide bomber's vehicle in Kabul, June 11. At least 35 people were killed.

Suicide bomber blows up Kabul bus, kills 35

KABUL—A POWERFUL BOMB RIPPED THROUGH a police bus in the Afghan capital Sunday killing up to 35 people, police said, in one of the deadliest attacks in the city since the Taliban regime was toppled in 2001.

Police officials gave different death tolls after the blast, with the city's western investigation department chief, Khalid Fakhri, announcing that 35 police officers and bystanders were killed.

The would-be suicide bomber was killed, police said, as he tried to escape the explosion. The bomber was killed by the explosion.

"Among those wounded were two doctors, a nurse and two police officers who were injured by the blast when the explosion took place," Fakhri said.

The 45-seater bus, which had been taking officers to a police training session, was hit by a suicide bomber who was killed.

New children's book and suite of paintings launched today

THE CHILDREN'S BOOK, 'Ang Batang Maraming Bawal,' written by Bernabe Gonzales, winner of the second annual Ramon Forbes Children's Storywriting Competition, will be launched today at 6 p.m. at the Art Space of Gloria 4, Ayala Center, Makati.

The integral book has an English translation by your Reference Administrator. It is written by the author Bernabe Gonzales.

The launch will coincide with the unveiling of artist Rodell Tapalla's collection of paintings that were used as illustrations for the book.

The book is jointly published by Carina, which promotes and creates young artists, and the UNP Publishing House.
